

Algorithm

int main()

1. Start

2. Struct Student S1

3. Read S1.Name, S1.age

4. display (S1)

5. return 0

6. Stop

void display (struct student S)

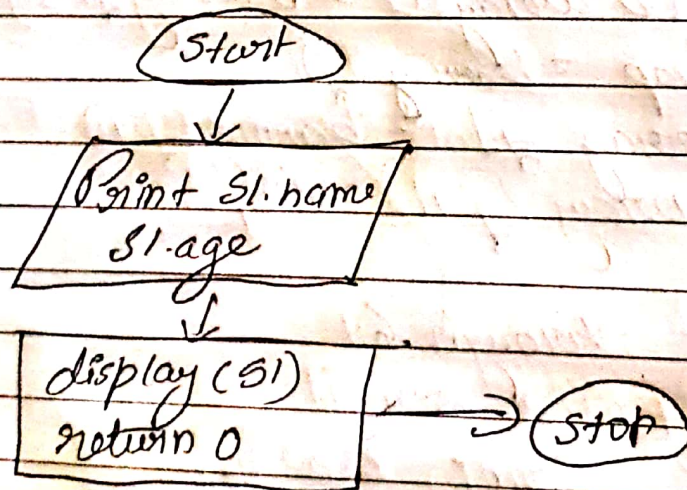

1. Start

2. Print S.name, S.age

3. Stop

Flowchart

int main()

void display (struct student S)
