

Write a c program to implement string compare without using Intault function

Algorithm

Step 1:- Start

Step 2:- Input two strings

Step 3:- for  $i = 0$  to  $|S1[i]| = '0'$

$S1[i] != S2[i]$

then  $x = 0$

else  $x = 1$

Step 4:- if  $(x = 0)$

Print "Strings are different"

else

Print "Strings are same"

Step 5:- Output result of compared strings

Step 6:- Stop

flowchart.
